About the Indian Knowledge System Cell

The Indian Knowledge System (IKS) Cell is an initiative under the Ministry of Education (MoE) and is part of the All India Council for Technical Education (AICTE). Its primary aim is to promote and integrate India's rich cultural and intellectual heritage into modern education and research.

Objectives of the Indian Knowledge System Cell:

- 1. Preservation of Heritage:**
Document, preserve, and disseminate the vast repository of traditional Indian knowledge in areas such as Sanskrit, science, medicine, philosophy, literature, arts, and architecture.
- 2. Integration into Modern Education:**
Incorporate IKS into the higher education curriculum to make students aware of India's contributions to global knowledge systems.
- 3. Interdisciplinary Research:**
 - Encourage research that connects traditional Indian knowledge with modern science, technology, and innovation.
 - Provide academic frameworks and methodologies to validate and contextualize traditional practices.
- 4. Skill Development:**
Promote vocational training and skill development programs based on traditional knowledge, such as Sanskrit Heritage, Ayurveda, Yoga, Agriculture, and Handicrafts.
- 5. Global Recognition:**
Showcase India's contributions to global knowledge traditions, such as ancient Yajna, Mathematics (e.g., zero), Astronomy, Metallurgy, and Medical Systems.
- 6. Policy Formulation:**
Support the development of policies and programs that enable the integration of IKS into mainstream educational and research systems.
- 7. Digitalization and Accessibility:**
Develop digital repositories of manuscripts, texts, and other resources, making them accessible to researchers and educators worldwide.
- 8. Capacity Building:**
Train educators, researchers, and professionals in IKS methodologies to ensure its effective implementation.

Notice for Students

Subject: Plantation drive: "A Tree for Culture"

We are excited to announce a Plantation drive on "A Tree for Culture", scheduled for 8th August 2024. All students are encouraged to attend this Plantation drive to gain valuable insights. Tree planting supports the development of culture in various ways. Planting trees helps preserve traditional knowledge and practices, and provides information about the uses and cultural significance of different trees. Planting and caring for trees collectively fosters cooperation and harmony within the community, thereby strengthening social bonds. Tree planting activities educate people about the importance of environmental conservation and traditional botanical knowledge, helping to understand and maintain cultural heritage. The traditions of associated festivals and celebrations remain alive through the ages, granting recognition to cultural practices and passing them on to future generations. Thus, by planting 'a tree for culture,' we play a crucial role in preserving and promoting both nature and culture. We look forward to your active participation.
