Action Taken on feedback Report

Academic Session - 2022-23

- The clarity of course objectives as per programme outcomes and course outcomes requires to be enhanced. While students are always briefed on these objectives, it is essential for teachers to invest more time in effectively communicating this information. This will be achieved through orientation sessions, mentor-mentee sessions, classrooms and tutorials.
- It is observed that courses must cultivate heightened interest in the field. This entails embracing innovative pedagogies like experiential learning and Problem-Based Learning. These strategies will prepare students for real-world challenges with a commitment to technology integration. The college will persist in its investment in technology for teaching learning.
- Innovative teaching-learning methods need to be incorporated for inclusive and socially responsive educational environment. As per institutional development plan, RGPGC has launched its Learning Management System "PRAGYAN" aiming to align teaching-learning system with student centric academic environment.
- In order to enhance the integration of course content to real-life applications students are motivated for entrepreneurial ventures and start-ups through Talks, seminars and workshops. Teachers will be motivated to align instructional material with practical examples, case studies, and industry-specific scenarios. Field visits will be increased and a push for more internships will be emphasized.

The above report was discussed with the principal and the members of the IQAC.
