community and daily life.				

Programme: MA	Year: First		Semester: First	
Course Title: Research Method	s			
<b>Course Outcome:</b> The aim is	to familiarize th	e students with th	he meaning, objectives and	
significance of Research, the d	ifferent methods	and techniques u	used in data collection in	
research studies.				
		1		
Course Title: Statistical Metho	ds &			
Experimental Designs				
5	U	-	ted with the statistical concepts	
and methods in Psychology and		standing about d	ifferent types of design	
employed in Psychological Res	searches.			
		1		
Course Title: Social Psychology				
Course Outcome: The aim is to create understanding among the students about social				
behaviour, social interaction, perception, aggression and violence.				
		1		
Course Title: Biological Found	ation of			
Behavior				
<b>Course Outcome:</b> The purpose of the course is to acquaint with the structure and fuction of				
Nervous System, relationship b	etween brain and	d behaviour, inte	rnal mechanism of hunger,	
thurst, reproductive behaviour and mechanism of hormonal control.				

L

Course Title: Practical

**Course Outcome:** After completing this practicum, the student will have a comprehensive understanding about carrying out research project, how to frame research objectives and questions, plan, decide and execute appropriate methods of research, and intended data analysis.

Programme: MA	Year: First	Semester: Second		
Course Title: Positive Psychology				
Course Outcome: This course	e is aimed at pre	senting the positive outlook and approaches to		
behavioural aspects of people,	basic concepts a	nd criteria of positive health and happiness and		
emotional competence in huma	ın life.			
		Ι		
Course Title: Fundamental of H				
		chometry and psychological measurement,		
nature, uses, criteria of psychol	logical test, and	the steps used in test construction, item analysis		
and application of the test is the	e main objective	of this course.		
Course Title: Cognitive Psycho	ology			
Course Outcome: This course	e is aimed at crea	ating understanding and knowledge about		
cognitive aspects of behavior such as attention and perceptual process, memory, language and				
speech production, thinking problem solving and decision making.				
Course Title: Theories of Perso	onality			
Course Outcome: This course	e is intended to p	present the knowledge about nature and issues		
of personality, different approaches such as cognitive, learning, triguna and to give				
acknowledge of recent advances in personality research.				
_				
Course Title: Practicum				
<b>Course Outcome:</b> Students will be imparted variety of skills such as how to conduct the				
screening and assessement of developmental issues and psychological disorders.				
F				

Programme: MA	Year: Second		Semester: Third	
Course Title: Health Psycholog	y			
Course Outcome: To gain fam	niliarity with mea	aning of Health i	in Socio Cultural Context,	
Stress and Coping Behavior, Be	ehavioral Health	, Resources Pror	moting and Maintaining Mental	
Health, Behavior and Chronic I	Diseases, future	of health psycho	logy.	
Course Title: Guidance and Counseling				
<b>Course Outcome:</b> This course is prepared with the view to gain the knowledge about:				
1. Fundamentals of guidance and counselling.				
2. Methods of assessing the personality.				
3. Characteristics and purpose of various types of counselling.				

Importance of counseling in real life.

Course Title: Schools of Psychology
