ABOUT THE COLLEGE

Having a legacy of 75 years of excellence, Raghunath Girls' Post Graduate College rose to its present stature from very humble beginnings. It was set up by Mrs. Kripa Devi in memory of her late husband, Lala Raghunath ji under Kripa Devi Trust Fund with the noble aim to promote women's education in the area. The institution started as a small school on February 27, 1929 with just 5 students, became a high school in 1932, an intermediate secondary school in 1936, a graduate college in 1948 and a post graduate college in 1959. It has ever since progressed to become a pioneer and reputed institution of Meerut city, having a strength of nearly 5000 girl students as on date acquiring education in all the four streams of Humanities, Sciences, Commerce, and Education. Since 2015-16, bachelor's degree in vocational subjects of Yogic Science, Applied Clinical Psychology, and Information Technology have been started under DDUKK. Today it stands high being declared as one of the best Girls college in the state of Uttar Pradesh, having successfully completed four cycles of NAAC accreditation so far. Out of these four, the college has been accredited 'A' grade for two times and has been recently accredited 'B+' grade. It has also been awarded status of College of Potential for Excellence from 2006-2014 and College of Excellence by UGC in 2014

ABOUT THE SYMPOSIUM

The Indian G20 Presidency's theme of 'One Earth, One Family, One Future'(Vasudhaiva Kutumbakam) sets the tone to highlight the contribution of women (who are approximately 50% of any population) in changing the face of any country including India. Women have always been regarded as pioneers of the past to innovators of the present, hence an understanding of their role in innovation via various start-up's, research, environmentally sustainable and responsible choices that they make become pertinent for the promotion and development of a college established exclusively with the vision to empower them. Hence, this symposium is being organized for detailed discussion on this topic. We therefore invite academicians, researchers, present and future innovators etc. to discuss their viewpoints on the present topic so that the same may be utilized to put a robust mechanism moving forward through its future torchbearers...
